# Brayan Javier Mejía Saavedra

Professional overview | Cochabamba, Bolivia

mesabrabo@gmail.com | LinkedIn

Technology entrepreneur with a background in biomedical and systems engineering and leadership experience at DOCIA and AgroEscudo. My work connects product direction, team coordination, project communication and the prototyping and validation activities documented in my CV. I am interested in applied technology, IoT and digital products, bringing a perspective that connects user needs, engineering and venture development. Individual technical contributions are distinguished from the responsibilities of other team members.

## VENTURE EXPERIENCE

**AgroEscudo** | Founder & CEO | 2026 - Present

Product direction and team coordination in agricultural IoT monitoring. Technical and validation activities are reported in the supplied CV.

**DOCIA** | Founder & CEO · CV period | 2025 - 2026

Entrepreneurial direction, product vision and collaboration with a digital health team. Software engineering and AI have distinct team owners.

## EDUCATION & MOBILITY

**Universidad del Valle · Univalle**
Biomedical Engineering studies completed | 2022 - 2026

**Universidad Mayor de San Simón · UMSS**
Systems Engineering student | 2022 - Present

**Universidade Estadual Paulista · UNESP · Brazil**
MARCA MERCOSUR academic exchange | 2024-08 - 2024-12

Biomedical Engineering program completion and ongoing Systems Engineering studies confirmed by the author. Formal degree conferral is not inferred.

## SELF-REPORTED SKILLS

ESP32 | LoRa | Python | FastAPI | Flutter | PostgreSQL | MySQL

Sensor integration, prototyping, product direction and project communication.
